[TBD Capstone Project]

2015 - 2018
Project Manager
Center for Open Science, Charlottesville VA

Graphic design and content development for digital flyers, blogs
posts, email and newsletter marketing, A/B testing, website
updates promote COS's products and services. I led and managed a
global community advocating for responsible scientific practices
and grew the program from 50 to over 200 ambassadors
worldwide. Using data visualization with Python, I created static
and interactive maps of ambassador locations. [link]
